Functional and versatile,
the Artek essentials serve the
small needs of daily life and
bring beauty to the everyday.

Artek was founded
in Helsinki in 1935 by
four young idealists:
Alvar and Aino Aalto,
Maire Gullichsen,
and Nils-Gustav Hahl.
Their goal was "to sell
furniture and to promote
a modern culture of living
by exhibitions and other
educational means."

In keeping with the radical spirit of
its founders, Artek today remains an
innovative player in the world of modern
design, developing new products at
the intersection of design, architecture,
and art. The Artek collection consists
of furniture, lighting, and accessories
designed by Finnish masters and leading
international designers. It stands for
clarity, functionality, and poetic simplicity.
The Artek essentials are a selection
of products that are made to last and
bring joy to the everyday. Picked from
the Artek collection, they range from
stools and tables to benches, shelves,
lighting, textiles and accessories.
Made essentially of natural materials
and impervious to fashion, the Artek
essentials age beautifully through
everyday use and are often passed
on from one generation to the next.

Stools, Chairs and Benches

Made not only for sitting, Artek stools, chairs and benches support a wide range of functions and may be used for working, dining or resting, for short periods or long durations. Aesthetically appealing, durable, and adaptable, they rise to the challenges of contemporary living.

Lighting

Lighting is integral to Artek. For Alvar Aalto, the interplay of natural and artificial light was of central importance, and many of his original lighting designs still form part of the Artek collection today. Beyond their function, Artek's lights are united by their sculptural presence.
