PRODUCTION PROCESS

The seat, backrest, and armrests are made from curved plywood, with the shell CNC-milled on a 5-axis machine. The core is beech veneer, finished with an outer layer of oak veneer. Upholstered options are available, including full wood, seat upholstery, and fully upholstered versions, with double-layer foam used on the seat for added comfort. The base is made from bent, welded steel tubes, with armrests crafted from steel rods. The base comes in either a powder-coated or chrome finish.
