Connect Modular Sofa Modules

"Connect is a modular seating system based on finding perfect proportional connections between the different components of the sofa. The design shows precise attention to detail and has architectural principles derived from modernism. The sleek, long lines give the sofa a modern yet timeless expression. Connect the modules to create a sofa of your choice."

Description	The Connect Modular Sofa brings a modern perspective to the typology, allowing for its user to customize the sofa for their exact spatial and aesthetic needs with 14 different modules. Designed with long, elegant lines, the Connect Modular Sofa's details of its small feet underneath for a hovering, light sentiment and pointy corners allows for the design to bring character to any space, all while complementing and enhancing its surroundings. Use the Connect Modular Sofa for a modern comfort in any workplace, lounge area or hospitality setting.
Material	Seat and back frame are made from FSC™-certified (FSC-CO28824) wood. The back frame is covered with cold foam filling and cotton wadding. The seat is made with zig-zag springs, felt, cold foam, and cotton wadding. Each module is upholstered in high-quality textiles or imitation leather and is kept together with connecting metal brackets. Please note: The North American stock variants are not FSC™-certified.
Cleaning & Care	For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing with soapy water made with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting Kvadrat.dk, Nevotex.dk, Maharam.com, or Gabriel.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another. Imitation Leather: Clean with lukewarm PH-neutral, soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterward.
