The Foundry Upholstery Series showcases tailored minimalism with details that elevate fashion and function to suit any residential or commercial setting. Inspired by elements of classic Scandinavian design, the Foundry Chair offers ample sophistication as a standalone piece, showcasing striking lines, an extra slender tight back frame and a seat cushion that seems to float above elevated, cylindrical steel legs. A sturdy, steel reinforced FSC®-Certified frame ensures that Foundry holds up in high-traffic environments. Available in fabric and leather. Our leather hides are carefully selected for their raw, natural surface characteristics which make each piece unique.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply). Visit guscontract.com for more information about our Trade & Contract programs.

Foundry Chair

- Features elegant lines and thin, elevated legs.
- The tight back chair has a removable seat cushion which securely attaches to the base by hook and loop fasteners.
- Seat cushion is crafted from Dacron-wrapped, high resiliency, medium density foam.
- Inner frame is kiln-dried FSC®-Certified hardwood in support of responsible forest management (FSC® 092551).
- Frame is reinforced with steel for long lasting durability.
- 9-gauge No-Sag, sinuous spring suspension system.
- Cylindrical legs are made from black powder-coated steel.
- Non-marking leveler feet can be adjusted for stability on uneven floor surfaces.
- Available without matching Ottoman.
- Manufactured to meet California TB117-2013 fire safety standards without the use of flame retardant additives in the upholstery foam.
- All fabric is California TB117-2013 certified and double rub tested.
- Our leathers may have distinct surface characteristics, natural markings, grain pattern and colour variations which differ from hide to hide and from one product to another, making each leather product unique.
- Surface scratches and wear marks on leather are normal and to be expected. Over time they will contribute to the unique personality, patina and visual charm of the design. If desired, scratches and wear marks may be minimized with the use of leather conditioner.
- With all leather products, some stretching over time is normal. This "working in" of the leather only adds to the comfort, softness and character of the design.
