COLUMN COAT RACK

Please make sure to use the correct dowels and screws to mount the coat rack correctly to the wall.

Depending on the used dowels and screws the load capacity of the coat rack can vary. Please talk to a professional if you are uncertain of the load capacity.

Be aware that wood is a living material changing imperceptibly over time. All wood reacts to sunlight, humidity, temperature and can vary slightly in grain pattern and coloration.

Please use only warm soap water when cleaning and dry immediately with a soft cloth. The solid oak is treated with black laquer. Exposed to direct sunlight the colour may fade slightly over time.

Max load capacity 15 kg.
