Linear Steel Café Table

"The Linear Steel Café Table was designed from the idea of presenting durable materials in a sophisticated and understated expression for outdoor use with its form language inspired by the notion of meetings—the meetings of lines, the meetings of shapes and the meetings of materials. The design is defined by its straight lines for a contemporary yet timeless aesthetic, translating the values of elegance, longevity and functionality into modern outdoor furniture."

About the Designer	Thomas Bentzen, former Head of Design at Muuto, started his own studio in 2010. Bentzen's designs are characterized by simplicity, rationality and functionality — always firmly rooted in the Danish design tradition, material knowledge, craftsmanship and rational industrial manufacturing processes. His work continues to receive international recognition at fairs and exhibitions all over the world.
Environment	Outdoor
Country of Production	Italy
Preassembled	No - Mount base to tabletop.
Description	The Linear Café Table is characterized by its clean lines and elegant shapes, allowing for it to complement any outdoor setting. Use the design on its own or in company with the Linear Steel Armchair or Side Chair.
Material	Tabletop and base in galvanized steel made using minimum 80% recycled steel with a weather-resistant deep matt, UV-resistant powder-coated finish, making it the table suitable for outdoor use. The recycled steel comes from post-consumer waste. Plastic glides for outdoor use.
Cleaning & Care	When cared for properly, the Linear Steel Series is designed to last. Follow these simple rules to care for your design in the best possible way. Clean the table with a damp cloth after use. If necessary, use a mild detergent or dish-washing liquid, not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away. Lacquered surfaces can get scratches and chips if hit by other hard objects. Please wipe away any sand grains from the table before use to prevent scratches. Be careful around the design when handling other hard objects, such as tableware and porcelain. Never stack tables on top of each other as hitting the surfaces against each other will cause lacquer to chip and scratch.
