KUBUS LINE

Designed by *Mogens Lassen*

With a sharp sense of contemporary Functionalist style, Mogens Lassen designed the iconic Kubus candleholder in 1962, a piece once reserved solely for family and close architect colleagues. In 1983 he reapproached his own geometric candleholders, and the result was Line, whose shape was conceived through a mathematical formula. The two candleholders form a single line, and the architectural look fits perfectly with contemporary minimalism. Kubus and Line is still crafted in Denmark, and among architects and design connoisseurs it has achieved the status of a modern international design icon.
