

# Rime Rail Lamp

“Designing simple things is often one of the hardest things to do. We wanted to create a simple lamp with a glass shape, giving it a soft expression while making its top and pendant tube as subtle as possible. We were inspired by the shape of acorns for the gentle lines of the pendant while hinting towards the shaded expression of ice and rime for the glass of the design, allowing for the light to shine slightly through with a refined touch. The Rime Rail Lamp brings a timeless yet modern perspective to the archetypal light through its translucent shade and graphic form.”
