

VL STUDIO TABLE/FLOOR

The fixture emits a diffused, glare-free light. The triple-layered opal glass provides a comfortable light distribution and radiates a pleasantly delicate glow to its surroundings.

Vilhelm Lauritzen

Vilhelm Lauritzen (1894–1984) is one of the most significant architects in the history of Denmark; he was the trail-blazing figurehead of Danish functionalism. A number of his buildings – Nørrebro Theatre (1931–32), Daells Varehus department store (1928–35), Radihuset (1936–41) and the first airport built in Kastrup (1937–39) – represented the concentrated essence of contemporary life.
