

Museum NM&.045

Museum NM&.045 is a console shelf in aluminum. It was originally designed for the Swedish Nationalmuseum where it holds works of art in the museum's café and restaurant for the visitors to view. The shelf fits just as well as a bedside table or as an extra table in your hallway where you can either place keys and such or a beautiful vase. The candle holder is manufactured and distributed by String Furniture and is designed by Swedish TAF Studio.
